DAY 02: QUITO

After breakfast in the hotel, the first stop is to explore the Old Town (Half Day City Tour). We visit the main sites of colonial city area such as: Plaza de la Independencia, where the Presidential Palace, the Cathedral and the El Sagrario Church are located. Also, we visit the Church of La Compañía (1605), with its impressive golden altars. This is considered as one of the best examples of baroque art in America. Then we take you to the church and monastery of San Francisco (1535). This is the oldest Ecuadorian church and the main altar inside we can see a spectacular example of baroque carving. We will also observe an excellent collection of works of art, which includes paintings, sculptures and furniture dating from the 16th century. Finally, we will go to the viewpoint highest in the historic center, the hill "El Panecillo" from where we will have a spectacular view of Quito. Time for lunch (on your own).

In the afternoon, we head north of the city towards the Middle of the World; this is the site where, in 1736, the expedition of Charles-Marie de la Condamine made the measurements that showed that this was indeed the Equator. Here visitors have the rare opportunity to be in two hemispheres at the same time! Same time! Then we will visit Intiñan museum, the perfect place to experience some phenomenon that occurs when you live on the equatorial line. Here our guide will also explain how Andean culture is related to our location in the world. Return to hotel.
